

Redefining human potential

ENERGIA – SOI

Primary Learning Abilities | Advanced Learning Abilities | Advanced Learning Abilities-Career

Every Child,
has potential to thrive

Our intensive programs focus on developing core abilities and potential in each student by providing the support to face 21st century challenges

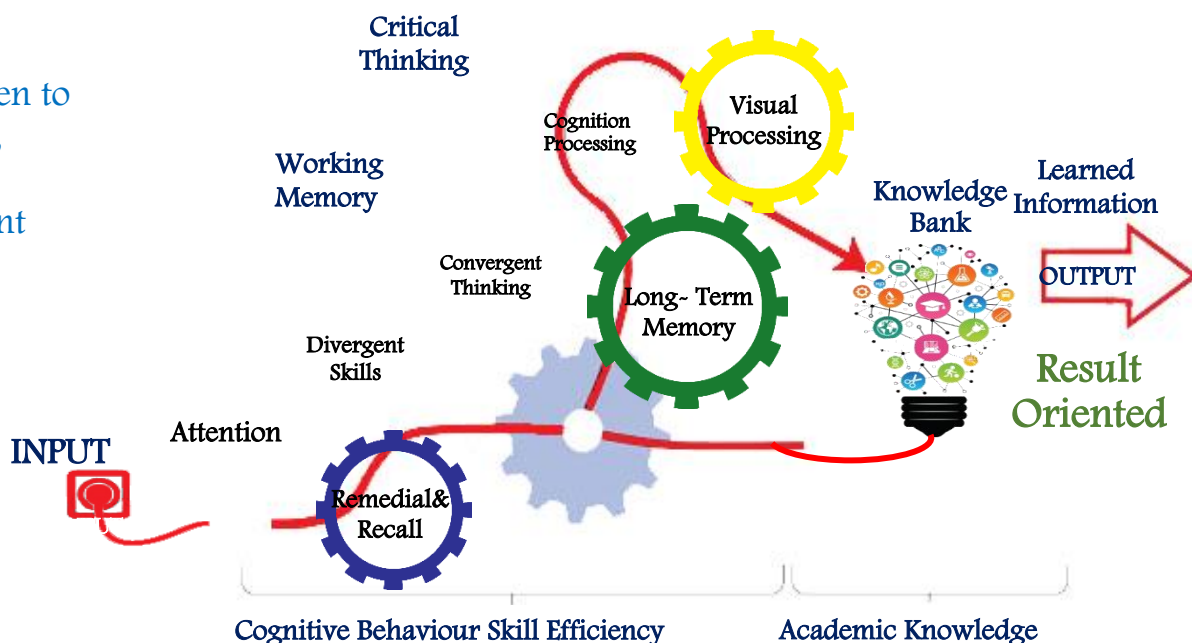

Each child is unique. Our priority is teaching children the skills they need for nurturing intellectual growth so that they can thrive on their own.

NURTURING MULTIFACETED INTELLIGENCE

EDUCATION IS THE FOUNDATION – WE OFFER SERVICES WHICH MAKE THIS FOUNDATION MORE STRONG

OUR GOAL:

Energia-SOI provides opportunities to children to develop into confident, competent adults by strengthening important developmental areas.

ENERGIA – SOI

Redefining human potential Primary Learning Abilities | Advanced Learning Abilities | Advanced Learning Abilities-Career

Primary Learning Abilities (PLA)

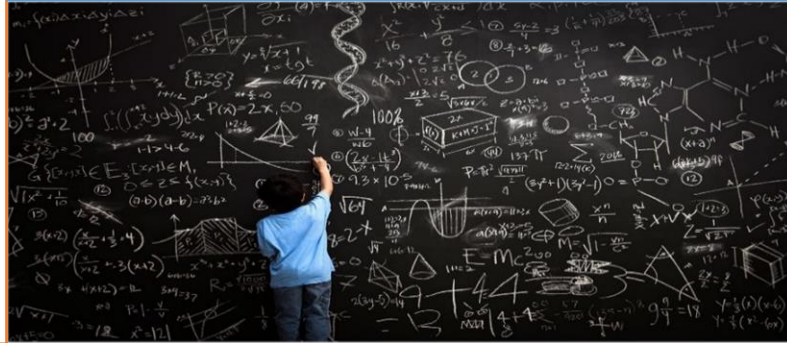

KG – Grade 4

The program is designed to build the cognitive and perceptual strengths that empower these students to transition from the concrete stage to symbolic comprehension required in elementary school. This gives us 14 profiles for separate learning abilities.

The program includes detailed assessment followed by in-depth counselling sessions and focused training with personalised workbook.

“Energia in collaboration with Structure of Intellect (SOI), a US based company with 60 years of intensive research provides multiple intelligence and skill building training for children of all age”

Advanced Learning Abilities (ALA)

Grade 5– Grade 10

The program is designed to build the preparatory skills to face challenges. Gradually the academic difficulty increases, hence, coping starts playing an important role. For learning they require to use higher order thinking and problem solving. This gives us 30 profiles for separate learning abilities.

The program includes detailed assessment followed by in-depth counselling sessions and focused training with personalised workbook.

(ALA- C)

Our Unique Approach
